

Ensol provide a full back up service either on a contract or individual requirement basis.

- Planned Maintenance - Our Planned Preventative Maintenance services are statistically proven to prolong the life of your equipment and systems and reduce the number of breakdown calls. Regular checks can also highlight potential faults and prevent costly breakdowns.
- Reactive Maintenance - You can call us 24 hrs a day to carry out essential repairs and fault finding. Our rapid response ensures any disruption to your business is kept to an absolute minimum.

We provide maintenance and service for:

- Air Conditioning - Package & split air conditioning systems from Daikin, Mitsubishi Electric, Hitachi, Toshiba, Panasonic, LG, Fujitsu & Carrier etc. All work carried out by our in-house trained technicians with C&G 2079 & NVQ qualifications. We are full members of REFCOM.
- Evaporative Cooling - Annual winterisation and spring recommissioning.
- Smoke Ventilation - Annual Maintenance to vents and service to electric & pneumatic control systems plus refurbishment & modifications. All major manufacturers covered including Colt, Powrmatic, Nuaire, Lidiard & Skelton etc.
- Gas & LPG fired space heating - carried out by GasSafe Registered Engineers. All major makes including Powrmatic, Reznor, Winterwarm, Ambi-Rad, Benson, Combat, Blackheat, Dravo, Space-Ray etc.
